## Education:

**Iowa State University** | Ames, Iowa

Bachelor of Science

Major: Computer Engineering

Expected Graduation: **Spring 2026**

GPA 3.22/4.00

**Iowa Central** | Fort Dodge, Iowa

Associates of Science

Major: Computer Engineering

Graduated: **May 2023**

GPA 3.63/4.00

## Work Experience:

### **North Central Iowa Service (April 2020 - January 2025)**

- Troubleshoot and repaired a wide range of mechanical and electrical systems, applying analytical skills to identify root causes and implement effective solutions.
- Worked directly with complex tools, systems, and schematics, building a strong foundation in technical operations and system integration.
- Demonstrated adaptability and a continuous learning mindset by acquiring new skills on the job to meet dynamic technical challenges and client needs.

### **Dunbar Emergency Vehicle Services (August 2022 - August 2023)**

- Applied technical expertise to design and build core vehicle systems, contributing to overall performance and reliability.
- Gained hands-on experience with diverse automotive subsystems to develop a comprehensive understanding of their functionality and integration.
- Established and implemented an efficient workflow process to ensure timely and organized project completion.

### **Adam's Moving (August 2024 - Present)**

- Engaged with clients to assess needs and deliver tailored solutions, ensuring satisfaction and clear communication.
- Collaborated with team members to improve workflow efficiency and optimize task execution.

## Activities:

- **Triangle Fraternity**, 2023 - Present
  - Academic Chair (January - May, 2024)
    - Collaborated with the President and VP of Operations to implement academic support systems—including tutoring programs, group study sessions, and one-on-one academic meetings—to improve overall chapter GPA.
- **Volunteer for Dayton Wranglers**, Fall 2019 - Present

## Technical Skills:

**Programming Languages:** C++, C, Java, Python, JavaScript, HTML, CSS

**Operating Systems:** Windows 10/11, Linux

**Software:** MS Teams, Slack, MatLab, MySQL, Visual Studio, IntelliJ, Render
